

What are the benefits

- Internal solution for HP LaserJet printers
- Documents follow users to their choice of printer
- Tracks users print activity
- Recovers print costs by charging users or groups, either fully or partly
- Utilizes existing ID-card infrastructure

SafeCom P:Go HP delivers intelligent printing solutions embedded as hardware and software into HP LaserJet printers.

Through its flexible range of add-on functionality SafeCom P:Go HP can help organizations gain control over their print costs and wastage. SafeCom P:Go HP can also enable document security on printers. The following add-on functionality is available:

- **SafeCom Tracking**
Monitor print usage and use the recorded data for subsequent departmental invoicing.
- **SafeCom Rule Based Printing**
Allow print cost savings by offering management a method for enforcing policies for printing. Rules can be applied to groups of users. Requires SafeCom Tracking.
- **SafeCom Client Billing**
Allow users to associate billing codes with any print job. With billing codes it is possible to get a very detailed breakdown of printer usage and possibly recover these expenses by invoicing clients. Requires SafeCom Tracking.
- **SafeCom Pay**
Turn print costs into a revenue stream by making users prepay for print. Requires SafeCom Tracking.
- **SafeCom Pull Print**
Documents follow users to their choice of printer.
- **SafeCom Encryption**
Protects print data on the network. Requires SafeCom Pull Print.

SafeCom P:Go HP is compatible with other SafeCom solutions, allowing customers to offer similar functionality across a wide range of devices.
